Honoring Choices mission is to inform & empower adults, starting at 18 years old, to make a personal health care plan and get connected to the best possible care that honors their values and choices, *all through their life*.

Honoring Choices supports individuals to make their own health care plan and provides support to the Honoring Choices Partners, health care providers and community groups across the Commonwealth who help adults & families to start planning discussions and connect to person-centered care in their community.

Working together, *Honoring Choices* can help to ensure all Massachusetts adults, including our most vulnerable citizens, receive the best possible care that honors their choices all through their lives.

Individuals can make a personal health care plan and direct their care at every phase of health: when Promoting Everyday Wellness, Managing Health and Chronic Illness, and Living with Serious Advancing Illness. In this seminar participants will be given tools and resources for themselves, their families and those they work with, and learn conversation starters for care providers and loved ones.

More information on *Honoring Choices* can be found at <http://www.honoringchoicesmass.com>.
